

ROCKLIN — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Rocklin.

LOCAL SNAPSHOT

Rocklin runs on new construction and business parks. Framed subdivisions in Whitney Ranch, tenant-improvement work along Granite Drive and equipment yards off Sunset Boulevard are the properties that get hit — copper, tools, fuel and appliances staged before lock-up.

Most-called problem: copper, tool and appliance theft from active subdivisions and TI job sites. **Demand profile:** business parks, active construction subdivisions, HOA communities and college-adjacent housing.

AI WATCHES

Analytics hold the overnight line on Sunset Boulevard, Rocklin Road, Stanford Ranch Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Copper, tool and appliance theft from active subdivisions and TI job sites, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

Roughly 25 minutes from Sacramento HQ; officers routinely cover Rocklin and Roseville on the same shift.

NEIGHBORHOODS COVERED

Stanford Ranch · Whitney Ranch · Sunset Whitney · Downtown Rocklin. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Rocklin unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.
