

WEIMAR — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Weimar.

LOCAL SNAPSHOT

Weimar's campus and institutional properties need a different patrol structure than a strip center: multiple buildings, long internal roads, and after-hours access that has to be verified rather than assumed.

Most-called problem: unverified after-hours access across multi-building rural campuses. **Demand profile:** institutional and campus properties, rural residential and small commercial.

AI WATCHES

Analytics hold the overnight line on Canyon Way, Weimar Cross Road, Placer Hills Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Unverified after-hours access across multi-building rural campuses, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

About 45 minutes from Sacramento HQ; scheduled foothill coverage.

NEIGHBORHOODS COVERED

Weimar · Canyon Way corridor · Placer Hills. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Weimar unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.

WHAT WEIMAR CLIENTS SEARCH FOR

- "campus security patrol Weimar"
- "multi building night checks"
- "after hours access verification"
- "rural facility security service"
- "checkpoint patrol reports"
