

LINCOLN — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Lincoln.

LOCAL SNAPSHOT

Lincoln's growth is the story: master-planned communities with clubhouses and pools, and constant homebuilding phases behind them. That combination produces two distinct calls — HOA rule and amenity enforcement on one side, and framed-home material theft on the other.

Most-called problem: amenity after-hours use in HOA communities and theft from active building phases. **Demand profile:** master-planned HOA communities, active homebuilding, and highway-adjacent commercial.

AI WATCHES

Analytics hold the overnight line on Highway 65 corridor, Twelve Bridges Drive, Ferrari Ranch Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Amenity after-hours use in HOA communities and theft from active building phases, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

About 40 minutes from Sacramento HQ, routed with our Rocklin and Roseville coverage.

NEIGHBORHOODS COVERED

Twelve Bridges · Lincoln Crossing · Sun City Lincoln Hills area · Downtown. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Lincoln unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.
