

COOL — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · EL DORADO COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Cool.

LOCAL SNAPSHOT

Cool sits just across the American River canyon from Auburn on Highway 49, and its gated and semi-rural communities deal with trailhead parking overflow, after-hours amenity use and seasonal vacancies.

Most-called problem: trailhead parking overflow and after-hours amenity use in gated communities. **Demand profile:** gated residential communities, recreation staging areas and small commercial.

AI WATCHES

Analytics hold the overnight line on Highway 49, Saint Florian Court, Auburn Lake Trails area — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Trailhead parking overflow and after-hours amenity use in gated communities, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

Around 45 minutes from Sacramento HQ via Auburn; scheduled coverage on the Highway 49 route.

NEIGHBORHOODS COVERED

Auburn Lake Trails · Cool townsite · Highway 49 corridor. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Cool unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.
