

LOOMIS — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Loomis.

LOCAL SNAPSHOT

Loomis is acreage and small commercial, which changes the patrol job. Long driveways, unlit outbuildings, tractor and trailer storage, and businesses along Taylor Road that sit dark after 7 p.m. are the recurring targets.

Most-called problem: equipment and trailer theft from unlit acreage and contractor yards. **Demand profile:** small-town commercial, ranch and acreage properties, contractor yards and equipment storage.

AI WATCHES

Analytics hold the overnight line on Taylor Road, Horseshoe Bar Road, King Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Equipment and trailer theft from unlit acreage and contractor yards, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

Roughly 30 minutes from Sacramento HQ on the I-80 foothill route.

NEIGHBORHOODS COVERED

Downtown Loomis · Horseshoe Bar · Sierra College corridor. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Loomis unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.
