

NORTH AUBURN — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in North Auburn.

LOCAL SNAPSHOT

North Auburn is a strip-and-center corridor, not a downtown. The problems here are lot-based: overnight RV and van parking, cart-coral encampments, catalytic converter theft in employee rows and after-hours dumping behind anchor tenants along the Highway 49 stretch.

Most-called problem: overnight RV and van camping in commercial center parking lots. **Demand profile:** big-box and strip retail, medical campuses, self-storage and county facilities.

AI WATCHES

Analytics hold the overnight line on Highway 49 north, Bell Road, Atwood Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

Overnight RV and van camping in commercial center parking lots, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

Same foothill route as Auburn — officers already on Highway 49 most nights.

NEIGHBORHOODS COVERED

Christian Valley · Atwood · Dewitt · Rock Creek.
Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked North Auburn unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.
