

AUBURN — GUARDS + AI

SUMMIT FORCE SECURITY GROUP · PLACER COUNTY · PPO #122730

There is no security without both: analytics never blink, licensed officers verify and respond. This is how that pairing runs in Auburn.

LOCAL SNAPSHOT

Auburn is the anchor of our foothill coverage. Old Town's bar-close foot traffic, the Lincoln Way storefront row and the Highway 49 retail corridor generate three completely different security problems in the same square mile, and each one needs a different patrol posture rather than one generic drive-through.

Most-called problem: after-hours loitering and vehicle break-ins in the Old Town and Lincoln Way lots. **Demand profile:** downtown retail, medical and professional offices, county event venues and HOA communities.

AI WATCHES

Analytics hold the overnight line on Lincoln Way, Highway 49 corridor, Auburn Folsom Road — line-crossing, loitering, vehicle dwell and after-hours motion, escalated the moment a rule trips.

OFFICERS RESPOND TO

After-hours loitering and vehicle break-ins in the Old Town and Lincoln Way lots, door pulls and lot sweeps, contact with trespassers, lighting failures, and photo-verified documentation on every stop.

DISPATCH & RESPONSE

Dispatched from Sacramento — roughly 30 minutes up I-80, with officers who already run foothill routes nightly.

NEIGHBORHOODS COVERED

Old Town Auburn · Downtown · Auburn Ravine · Bowman · Baltimore Ravine. Marked-vehicle routes with time-stamped checkpoints.

DETECT / VERIFY / RESPOND / DOCUMENT

1. DETECT

Cameras + analytics flag motion, dwell or a crossed line in seconds.

2. VERIFY

A human confirms intent — no dispatch wasted on cats, wind or shadows.

3. RESPOND

A marked Auburn unit arrives, makes contact and clears the property.

4. DOCUMENT

Photo-verified report to you, and to law enforcement when needed.

WHERE CAMERAS ALONE FAIL

- Nobody is watching the feed at 3 a.m.
- Footage proves the loss — it doesn't prevent it.
- No lawful presence to ask a trespasser to leave.
- No lighting, gate or door-check on the ground.
- Police response is triaged behind higher-priority calls.

WHAT AUBURN CLIENTS SEARCH FOR

- "security patrol Auburn CA"
- "night patrol for my Old Town business"
- "someone camping behind my Auburn storefront"
- "guard for an event at the fairgrounds area"
- "HOA patrol Auburn"
